Dear James,

It has been so long since we have seen each other, I'm sure we would be real strangers at first. But your mother and father and my parents visited often after they got older.

I am attempting to collect information concerning our families and get it into some form that will be interesting for all in the family. I will make a copy for each who may want it.

If you can spare the time I would surely appreciate what ever you may be able to offer. I'm including my copy of the letter I sent to Gene Byrd - Uncle Wade's dr. It will give you more information.

I know the names we were all called by but I'm sure I don't know some real names. I have no idea what Aunt Addie's name was - as well as middle names. I remember the names Jewell and James but I can't remember any others.

Thanks very much for your assistance.

Your Cousin,
Mamie Pittman Shippy
